

Claims Recovery Service

Uninsured Loss Recovery Package*

The benefits to you...

Replacement Motorcycle -

We understand that it is important that you remain mobile and that is why we retain a panel of motorcycle rental companies who will supply you with a replacement motorcycle, together with motorcycle clothing and helmet if required. If your motorcycle is still rideable, we will supply a replacement for the repair period.

Motorcycle Repairs -

We will instruct engineers to inspect your motorcycle. If the engineer's report states that your motorcycle is repairable, we will instruct a repairer to collect and repair it for you. If the motorcycle is a total loss, we will claim the pre-accident value for you.

Personal Injury, Loss of Earnings, etc -

If you, or your passenger are injured in an accident, you may wish to claim compensation for your injuries. If so, an independent medical consultant will be instructed to prepare a report. Any other 'uninsured losses' - such as loss of earnings - will be formulated from information supplied by you.

Should we think it necessary, we will appoint a solicitor on your behalf to recover your uninsured losses.
